

Alkoless SF 2.60

(No.: 07211999)

- **USE:** Alcohol reduction / elimination dampening additive for use on sheet fed offset presses. Dosed through standard dosing units currently used for conventional dampening additives. Alkoless SF 2.60 is designed to be used with minimal IPA levels or as an alcohol free fount. Can be used with conventional oil or vegetable based inks and UV inks.
- **PROPERTIES** Reduces or eliminates the real Alcohol usage and therefore the VOC emissions in sheet fed press rooms. Excellent surface tension performance. Can facilitate complete removal of IPA from the pressroom.
- **INSTRUCTIONS** **Addition ratio:** 2 – 4% dosed through existing fount dosing unit for optimum performance. Dosage volume can be adjusted to suit on press requirements.
For soft and normal water quality.
- **SECURITY** The product is classified and marked according to EC-Directive 1272/2008 - in its latest version.
Only for commercial purposes!
- **PACKAGING** 10 kg can
20 kg can
220 kg drum
600 kg container
1000 kg container
- **FURTHER INFORMATION** Further information can be obtain by reading the safety data sheet and the product label.
Protect from frost !
Recommended by Heidelberger Druckmaschinen, KBA and manroland.
ISEGA-certification available.
