

PRO RUN

Additive for heatset fountain solutions to drastically reduce piling and increase run length

KEY CHARACTERISTICS

- Specific density: 1,155 g/ml
- Dosage: 1 - 2 %
- Non-VOC
- Application: heatset IPA-free (up to 5% IPA)
- Suited for all plate types
- Safe in use
- Free of solvents or any volatile components
- No influence on the runability of the fount

PACKAGING

27 kg
230 kg

FEATURES AND BENEFITS

Label free

- Health and environmental friendly
- Safe production

Protects the printing plate

- Increased run length
- Improved wetting of the plate

Avoid blanket piling

- Extended washing intervals
- Minimised paper waste
- Cost saving

Low dosage

- Economical in use

INSTRUCTIONS FOR USE

Add recommended dosage of the product to the ready mixed fountain solution. Can be used with any type of mechanic dosing system.

TRANSPORT & STORAGE

Protect against extreme weather conditions.
Protect from freezing, heat above 35 °C and direct sunlight.
For details about health and safety, please consult the MSDS.
