

Rotowash 60-1010

Blanket and Roller wash for use with conventional inks

KEY CHARACTERISTICS

- Very strong cleaning power
- Fogra approved
- Water miscible
- Corrosion inhibited
- Flashpoint: 64 °C
- Suited for both manual and automatic use
- Suited for coldset, heatset and sheetfed

PACKAGING

1000L IBC
600L IBC
200L metal drum
25L jerrycan

INSTRUCTIONS FOR USE

Blankets: Apply with a moist cleaning rag and remove at one go ink and paper dust from the blanket. Then rub with a moist cloth until the blanket is dry.

Ink rollers: Spray undiluted or mixed with water on the rollers, set the doctor blade.

Automatic systems: Follow the programme instructions.

TRANSPORT & STORAGE

Protect the product from extreme climatic conditions. Do not store at temperatures above 35 °C or below -10 °C.

Take the necessary precautions to avoid that accidental leakage pollutes the environment.

For details about health and safety, please consult the MSDS.

FEATURES AND BENEFITS

Emulsifies with water

- Stable emulsion
- Reduced maintenance
- Removes both ink and paper dust

Free of chlorinated hydrocarbons

- Safer and lower environmental impact

Strong ink dissolving power

- Fast acting, less standstills
- Economical in use
- Reduced downtime

Not aggressive to offset plate coating

- Can be used for all common plate types
